

YOGA ANGGARA DASWARA

Head of IT Architecture & Systems Engineering

Jakarta • 0812-3450-01894 • yoga.pub2013@gmail.com • <https://www.linkedin.com/in/yogadaswara>

SUMMARY

IT Architecture & Engineering Leader with nearly 10 years of experience in banking and financial technology industries. Experienced in driving enterprise architecture and development leadership to build scalable, secure, and high-performance digital platforms.

Proven ability to lead cross-functional engineering teams, define technology roadmaps, and implement modern architectures across cloud (GCP, AWS) and on-premise environments. Successfully delivered 30+ projects and more than 100+ change requests while maintaining service level agreements above 95%.

Currently driving AI-assisted development and automation to enhance system analysis, business requirement documentation (BRD), automation testing and software engineering productivity.

WORK EXPERIENCE

Bank Sahabat Sampoerna – Jakarta, Indonesia

- Head of IT Architecture & Systems Engineering** **Mar 2023 - Present**
 - Lead enterprise IT architecture initiatives to support digital banking transformation.
 - Spearhead cross-functional technology strategy and architecture modernization across banking systems.
 - Implement microservices architecture (.NET Core, Golang, Python) and CI/CD pipelines (GCP, AWS), reducing deployment cycles by 70%.
 - Deploy observability solutions (Grafana) to improve system reliability and reduce incident resolution time by 30%.
 - Ensure enterprise system availability and maintain SLA above 95% across banking platforms.

- Head of IT System Analyst** **Oct 2020 – Mar 2023**
 - Led cross-functional teams of system analysts and developers in delivering banking operational and lending systems.
 - Oversaw end-to-end system analysis including business requirement gathering, solution design, and technical documentation.
 - Collaborated with architecture and engineering teams to translate business needs into scalable technology solutions.
 - Drove system modernization initiatives and contributed to technology roadmap planning to improve scalability, security, and operational efficiency.

- IT System Analyst Officer** **Sep 2018 – Oct 2020**
 - Conducted system analysis and requirement gathering for banking operational systems and lending applications.
 - Designed functional specifications and system documentation for internal banking platforms.
 - Supported development of loan origination and supporting operational systems to improve lending process efficiency.
 - Collaborated with development teams to ensure solutions met business requirements and banking regulatory standards.

Bank Mandiri Taspen – Jakarta, Indonesia

- IT Staff (Professional Development Program)

Sep 2017 – Sep 2018

- Developed internal banking applications to support operational processes.
- Participated in system testing, deployment, and post-implementation support to ensure system stability and reliability.

PT Digital Mind System (Vendor Projects) – Jakarta, Indonesia

- Lead Software Engineer – Banking Projects

Apr 2016 – Sep 2017

- Led development of Loan Origination & Collection Systems for Bank Mandiri Taspen with a team of 5 developers, reducing loan processing time by 30%.
- Migrated legacy banking applications from .NET to IBM BPM for Bank Negara Indonesia, improving automation and system performance.

- Software Engineer – Banking Projects (Client: OCBC NISP, Indosurya, Bank Mandiri)

Sep 2015 – Apr 2016

- Developed Loan Origination & Appraisal Systems using .NET, ASP.NET, and Android technologies.
 - Integrated APIs to support banking operations and improve system interoperability.
-

EDUCATION

BINUS University – Jakarta | S1 Information Systems

2020 – 2022

Universitas Nasional Pasim – Bandung | D3 Management Informatics

2013 – 2017

ADDITIONAL INFORMATION

Technical Skills

Programming & Development

- .NET Core, Golang, Python, Flutter, Java, TypeScript
- Backend & Architecture
- Microservices, MSSQL, MySQL, PostgreSQL, NoSQL, Kafka, Ocelot
- Cloud & Infrastructure
- GCP, AWS, Docker, Kubernetes, VMware, Windows & Linux Server
- Observability & Monitoring
- Grafana, Prometheus, Monitoring & Alerting
- Development Methodology
- Agile (Scrum, Kanban), Waterfall

Tools

- Azure DevOps, GitHub, SVN, Jira, GWS, Visual Studio, VS Code, Android Studio, Sonarqube
- AI & Engineering Productivity
- Google AI Studio, MyGPT, LM Studio, AI-assisted development, documentation & testing

Certifications

- IT Governance Using COBIT 5 – PREINEXUS, Nov 2024
- IT Governance Using COBIT 4.1 – PREINEXUS, Nov 2024
- Enterprise Architecture in Practice – LinkedIn Learning, Nov 2023
- RedHat & Confluent Technology Update (Digital Banking & Real-Time Application) – RedHat & Confluent, Dec 2020
- IBM Certified System Administrator – WebSphere Application Server Network Deployment V8.5.5 and Liberty Profile, Dec 2016

Soft Skills

- Leadership & People Management
- Strategic Thinking & Problem Solving
- Communication & Collaboration
- Mentoring & Coaching
- System Analysis & Architecture Design
